4th International Conference on Agricultural and Food Sciences

Research call for Profitable and Sustainable Agriculture

October 14-15, 2019
Sunway Putra Hotel, Kuala Lumpur, Malaysia

Knowledge Partner

contact@agripace2019.org
Agripace 2019 will be held from October 14th to 15th, 2019 in Kuala Lumpur, Malaysia. The 4th International Conference on Agricultural and Food Sciences is convened annually and will be the best amalgamation of eminent researchers, students and delegates from both academia and industry where you can interact and collaborate to gain access to emerging technologies and global approaches in the field of Agriculture and Food Science.

Our past conferences were held successfully with kind support from Nobel Laureates, Eminent Professors, Government Organizations, Associations and participants of more than 25 countries. Agripace 2019 will be the best platform to celebrate agriculture festival with concurrent events Animal life and Aqua life.

We cordially invite you to participate and celebrate agriculture festival in Agripace 2019!

Scientific Sessions

Food Science Sessions
- Food Science & Technology
- Food Safety, Quality & Policy
- Food Security, Farming & Machinery
- Food Processing & Packaging Technologies
- Food Chemical Engineering
- Food & Nutritional Disorders
- Global Food Loses & Food Waste
- Food Biotechnology
- Probiotics and Health
- Nutrition & Diet Management
- Nutritional Epidemiology
- Nutrigenomics

Agricultural Science Sessions
- Sustainable Agriculture
- Plant & Crop Science
- Plant Biotechnology and Plant Tissue Culture
- Plant Pathology and Plant Microbiology
- Plant Physiology and Biochemistry
- Plant Breeding and Molecular Breeding
- Agricultural Engineering and Mechanization
- Plant Productivity Under Drought
- Maximizing Wheat, Rice & Maize Production
- Plant Fertilization & Protection
- Environment Pollution & Climate Change in Agriculture
- Crop Protection
- Plant & Forest Ecology and Its Diversity
- Maximizing Wheat, Rice & Maize Production
- Postharvest Physiology & Technology
- Seed science and technology
- Soil science and technology
- Water, Air & power management
- Agricultural Economics
- Organic Agriculture
- Weed science
- Agricultural extension
- Forestry Sciences
- Horticulture

www.agripace.org  
contact@agripace.org
Agriculture is the most important industry for any country and many countries have been focusing on economic development to boost farming. Agricultural and food science is a specific kind of the research that specializes in analysing farming methods and food production procedures to increase yield, food safety, food nutrition and other factors.

Today, the world has more than enough food to feed everyone, yet 850 million are food insecure. Achieving food security requires adequate food availability, access, and use. Agriculture and food science plays a key role in providing more food production, proper food security methods and food with high nutrition status.

More Agricultural production + Proper food security + High nutrition food leads to Profitable & Sustainable agriculture.

**Market report:**

The agriculture sector in Malaysia is divided into the estate sub-sector and smallholders’ sub-sector. The agriculture industry consists mainly of industrial commodities such as rubber, palm oil, cocoa and agro-food including rice, fruits, vegetables, fisheries and livestock. Large-scale commercial plantation owners dominate the landscape in respect of industrial commodities, while smallholders are concentrated mainly in the agro-food industry.

GDP from Agriculture in Malaysia increased to 25709 MYR Million in the third quarter of 2018 from 21948 MYR Million in the second quarter of 2018.

Under the Eleventh Malaysia Plan (the Plan) for 2016-2020, the government aims to transform the agro-food sector through, among other things, research and development (R&D) and modernisation initiatives, strengthening institutional support and extension services, implementing measures to increase food security and safety, increasing farmers’ incomes and boosting productivity.

**Why to Attend?**

- Best opportunity to reach the largest assemblage of participants from the Agriculture community.
- Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new developments, and receive name recognition at this event.
- World renowned speakers, the most recent techniques, developments, and the newest updates in Agriculture and Food Science.
- Meet Experts & Influencers Face to Face
- Opportunity for attendees to mix and mingle, form new relationships, and strengthen existing ones.

www.agripace.org  
contact@agripace2019.org
**Aim**
- Are you doing research on Agriculture/Food science?
- Are you looking for best platform to showcase your research?
- Would you like to connect with researchers around the world?
- Are you ready for Best Poster or Best Oral presentation award?
- Aripace 2019 is providing best opportunity to share your latest research in global platform

**Eligibility**
- Young Investigators (e.g. Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty) are the focus of this event.
- The topic must fit into scientific sessions of the conference.
- Each individual participant is allowed to submit only one abstract.
- None of the authors should have senior position or faculty position.
- Participants should be below the age of 33 years.

**Best Poster Award**
The Best Poster Award may be given to the young researcher of an outstanding research presented as a poster at the Young Researchers Forum.

Awarded with memento, Certificate and encouragement price of 400 USD

**Best Oral Award**
The Best Oral Award may be given to the young researcher of an outstanding research presented orally at the Young Researchers Forum.

Awarded with memento, Certificate and encouragement price of 400 USD
We are always updating our speaker list and adding more presenters to make your conference experience even better! Keep checking back to see who else will be hosting talks at Agripace 2019!

**Joergen SCHLUNDT**
Michael Fam Chair Professor Food Science  
Title: *“The novel use of Next Generation Sequencing in food microbiology and technology”*  

**Genhua Niu**  
Professor, Texas A&M AgriLife Research Center at El Paso  
Title: *“Role of vertical farming in urban agriculture”*  

**Shugufta M. Zubiar**  
Senior Food Permit and Control Officer, Government of Dubai  
Title: *“Role of Food Safety in helping farmers with Food losses and food wastage”*
Previous Speakers

Dr. M Vijay Gupta  
World Food Prize Laureate  
India

Dr. Benny Dembitzer  
Nobel Peace Prize Laureate  
United Kingdom

William Fry  
Cornell University  
USA

Randolph Beaudry  
Michigan State University  
USA

Ann-Perry Witmer  
University of Illinois  
USA

Manish Roorkiwal  
Genomics and Molecular Breeding  
ICRISAT, India

Prasanta Kumar Kalita  
University of Illinois  
USA

Ardeshir B Damania  
University of California  
USA

Dr. Mannava Sivakumar  
World Bank and World Metereological Organization, Switzerland

Dominique Taeymans  
FoodREG Consult Ltd  
Switzerland

Russell M Paterson  
University Putra Malaysia  
Malaysia

Gerard Sylvester  
FAO  
Bangkok
Day-1- October 14, 2019

Morning
- 08:00-09:00 : Registration
- 09:00-10:30 : Opening Ceremony and Introduction
- 10:30-11:00 : Refreshments
- 11:00-12:30 : Keynote Session I and Keynote Session II

Afternoon
- 12:30-13:30 : Lunch with Table Discussions
- 13:30-15:00 : Oral Presentations I

Evening
- 15:00-15:30 : Coffee Break
- 15:30-18:00 : Oral Presentations II

Day-2- October 15, 2019

Morning
- 09:00-10:30 : Keynote Session III and Key Note Session IV
- 10:30-11:00 : Refreshments
- 11:00-12:30 : Oral Presentations III

Afternoon
- 12:30-13:30 : Lunch with Table Discussions
- 13:30-15:00 : Poster Presentations I

Evening
- 15:00-15:30 : Coffee Break
- 15:30-18:00 : Oral Presentations IV

Day-3- October 16, 2019

### Visa Matters

Malaysian eVisa is issued for various purposes such as tourism, recreation, sightseeing, casual visit to meet friends or relatives, short duration medical treatment or casual business visit, whereby traveling to Malaysia has not ever been as easy as now with this appearance. Besides, the foreign nationals wishing to travel to Malaysia are required to possess a valid passport of their country and a valid Malaysian Visa. In line with that trend, we supply the online professional service for Malaysian eVisa application within 3 easy steps:

Agripace offered a broad aspect on agricultural and food issues in several countries, mainly Asians. The lectures were exposed by specialists what gives an important level in the discussions and also offered greater communication possibilities among the scientists. All the very best or future conferences.

- Prof. A. Javier Borderías - CSIC, Spain

The quality of presentations was outstanding and led to much thought on the many and varied disciplines involved in food and agricultural industries. The presentations contained well thought out and provoking ideas from varied disciplines. The audience was receptive and many interesting question and answer sessions prevailed.

- Kim Alexander, James Cook University – Australia

Thank you so much for organizing such a wonderful conference. We gained a lot of confidence as well as knowledge. Hope to join in next conference also.

-Kabrambam Dasanta Singh
Gauhati University, India
Glimpses of Previous Conferences

Gallery:
Kuala Lumpur is the capital of Malaysia, for many reasons. The city gives travellers a chance to learn about a different culture, with ethnic foods and architecture that blends the best of the East and the West. Oh, and to shop. CNN lists Kuala Lumpur as one of the four best shopping cities in the world. Most any time is a good time to visit, as temperatures in this tropical rainforest climate don't vary much throughout the year. Its modern skyline is dominated by the 451m-tall Petronas Twin Towers, a pair of glass-and-steel-clad skyscrapers with Islamic motifs. The towers also offer a public sky bridge and observation deck. The city is also home to British colonial-era landmarks such as the Kuala Lumpur Railway Station and the Sultan Abdul Samad Building.
